

Sakura Sushi House offers Japanese favorite and a beautiful view

A labor of love for proprietor Joselin Croes and her partner Hubert Kock, the Sakura Sushi House officially opened its doors on Thursday evening, and while guests enjoyed cocktails from the very complete bar, they savored various Sushi on the terrace of the Aventura Mall. Located on the second level of the mall located right on the town square, this charming little restaurant offers a spectacular view of the town and harbor while offering an overwhelming variety of Sushi, Sashimi, Nigiri, Temaki and a number of Japanese hot dishes and specialty rolls. Joselin affirms that if it is not on the menu, Sushi Chef Fernando, formally of the Saki House, will make it for you.

Very reasonable prices are even more reasonable on Local night on Wednesday and Sunday when the prices will be in Florins, not dollars, a good thing to know where we will be eating most Sundays, now. Definitely worth the trip off the main drag in town, it is only a short walk through the Seaport Village Marketplace to get to Sakura Sushi House, and from what we tasted, the food, the prices and the view are certainly worth it!
